

## Switchcrafted Store

What you need:

Twine

Hole Punch

Assorted Jars

Assorted small toys

Table and/or Box for display

Switchcrafted Printables (Price Tags for Jars and Switchcraft Dollars)

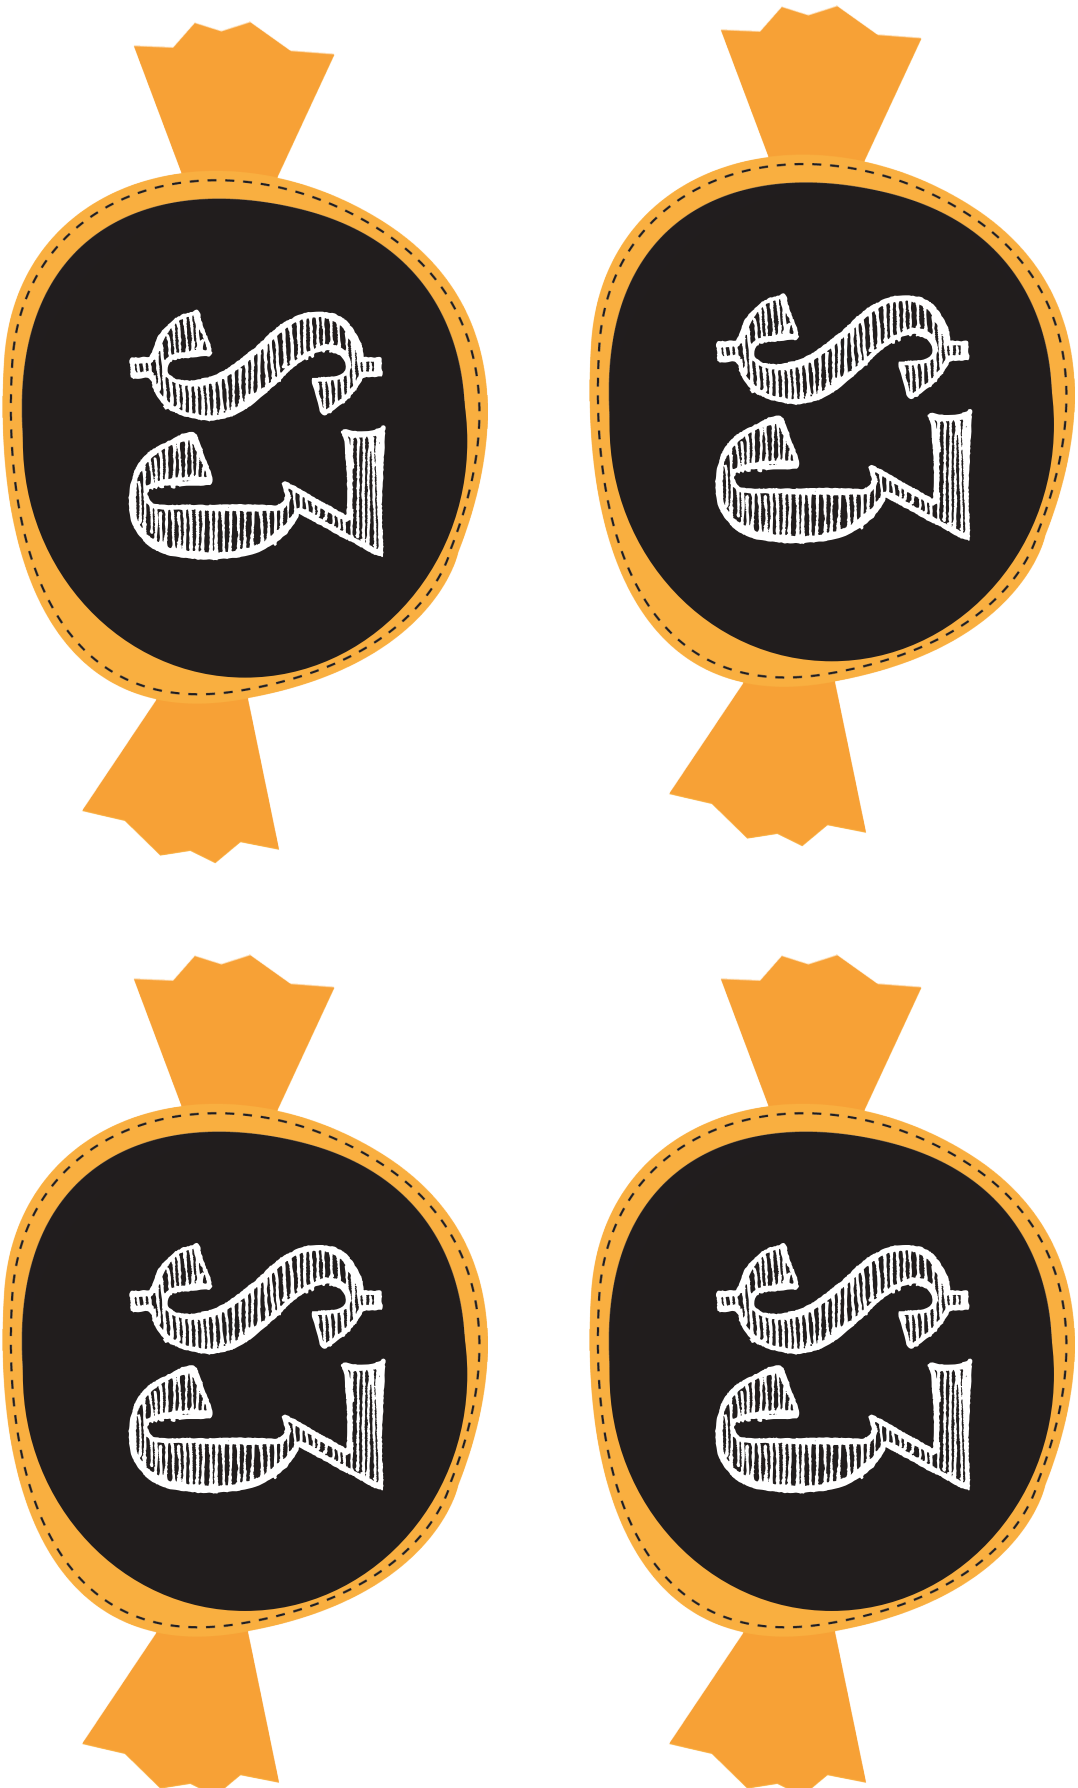

1. Collect assorted jars – we used a mix of ball jars and large recycled food jars. Other suggestions: canning jars, apothecary jars, vases, or thing up-cycled.
2. Depending on how many jars you use, collect small toy prizes to go into each jar. It's best to keep each jar full of the same type of toy. (Ex: for 6 jars you will need 6 toys) Fill the jars with the fun Halloween related small toys.
3. Download, print and cut the printables from [switchcrafted.com](http://switchcrafted.com).
4. Punch a hole in the candy shaped price tags. Use twine (we used black and white bakers twine) to tie the price tags to your jars.
5. Find a wood box that will fit your jars well and place the full jars on the box for display.
6. Decide how you want to the children to earn the Switchcrafted dollars. Some ideas are: cleaning up their room, dressing up for Halloween, being a good listener, doing charitable deeds... You can also incorporate the store into your Halloween party by handing out the dollars as prizes for playing games and/or showing up with a great costume. Kids love managing the store as well as making purchases from the store!
